Summary of Changes

Includes instructions and new exhibit for asset sales reporting (section 80.3).

Department of Agriculture is no longer required to submit a financing account report.

80.1 What is the purpose for these procedures?

The purpose behind asking that Cabinet departments and certain agencies submit reports on Federal outlays is to assist in the monitoring of spending and to improve Treasury Department forecasts of the Government's daily cash operating balances, borrowing requirements, and debt subject to legal limits, including trust fund investment activity. Realistic estimates, particularly for the immediate six-month period, enable Treasury to borrow only amounts needed to finance Government activities, thus reducing interest costs and overall cash balances maintained in the Treasury.

OMB needs reports on Federal outlays to monitor the deficit/surplus and to assess the reliability of each agency's financial management system. Reports are also used by Treasury for its monthly review of "Statement of Transactions" (SF 224) reporting, prior to publication of the *Monthly Treasury Statement of Receipts and Outlays of the U.S. Government*, and for periodic evaluations of the accuracy of the reports. These plans must be as accurate as possible -- an inability to forecast spending with reasonable accuracy can be a weakness in program and financial management. Problems of this nature need the attention of OMB and the agencies alike.

80.2 Who is required to submit a plan?

If your department or agency is listed in Exhibit 80A, prepare a monthly outlay plan for each new fiscal year and submit periodic reports on and revisions to that plan. Coverage of the reports should be identical to the coverage in the annual budget documents and should include outlay information for all appropriations and funds administered by your department or agency. OMB and/or Treasury may require a forecast of deposit fund activity for specific agencies and will notify you of this requirement.

80.3 What are the general reporting requirements?

Base estimates on your best current judgment of the amount to be spent by month in the period(s) covered by the report. Use the President's most recent annual budget or Mid-Session Review estimates as a base, but update those estimates to reflect subsequent actions of the Congress, including both completed actions and those that are almost certain to be completed. Also reflect recent trends and expected events on a realistic basis.

Budget and Mid-Session Review estimates serve as reference points only, not as targeted fiscal year totals. Do not force estimated monthly totals to conform to the Budget or Mid-Session totals, but reflect your best information at the time the forecast is prepared. The format for agency reports (Exhibits 80B, 80C, 80D, and 80E) includes columns for "OMB estimates" and "Differences" that will highlight changes from the most recent official estimates.

Between submission dates, you should provide updated plans to OMB and Treasury whenever there are significant changes in outlay totals, large transactions, or patterns (such as those that may be associated with an unanticipated increase in claims for an entitlement program or a change in the timing or amount of upward or downward re-estimates between on-budget subsidy and non-budgetary financing accounts). You should also cooperate with OMB and Treasury by providing additional details as requested.

You must submit a brief summary with each outlay report explaining the assumptions used in developing the outlay plan and any unusual or special circumstances affecting the plan. The summary will, for example, enumerate expected Congressional actions that will raise or lower estimates, discuss any other events that have caused or are expected to cause significant fluctuations in the normal outlay pattern, and specify whether they have been included or excluded from the plan.

80.4 What are the reporting requirements for large transactions?

You must identify large (\$50 million or more) *cash* and *non-cash* payment and deposit transactions. "Large transaction" refers to a single payment or deposit or a *group* of payments or deposits of a similar nature that occur, *typically*, on one day. Large transactions may be recurring, i.e., monthly, quarterly, semi-annual, or annual. Cash transactions result in a decrease or increase in Treasury's operating cash balance. Non-cash transactions are typically transfers between general fund and trust fund, deposit fund, or financing accounts.

List large transactions under the memorandum section of the agency report or footnote the transaction in the trust fund or financing account report. Exhibit 80B provides examples of how the following information should be presented:

- Description of payment or deposit;
- Appropriation account symbol;

- *MTS* line code;
- Dollar amount(s); and
- Assumed date of transaction.

You must footnote the description in order to provide an agency contact name and telephone number. The point of contact for a large transaction should be the individual who is responsible for ensuring that Treasury is informed between submission dates of revisions to dollar amount, transaction date, or any special circumstances related to the transaction. This individual is typically in your program and/or finance office.

All agency financial officers are required by Volume I of the *Treasury Financial Manual (TFM)*, Part 6, Chapter 8500 to provide short-run advance notification to Treasury for large cash deposits and payments. Deadlines currently vary from two to five business days prior to the transaction date, depending on the amount of the transaction. Agency budget and program offices should be cognizant of these requirements and provide whatever advance information is needed by finance offices in a timely manner. For further information regarding *TFM* Chapter 8500, contact the Funds Control Branch, Financial Management Service, Department of the Treasury, (202) 874-9790.

You must show large transactions for the following agencies and programs:

- Agency for International Development:
 - ▶ Economic support fund payments
 - ▶ Economic assistance loans, repayments
- Agriculture:
 - ▶ Federal Crop Insurance Corp. Fund -- Premium collections
 - ▶ Forest Service -- Payments to States
 - ▶ Rural Development:
 - Loan disbursements
 - Loan prepayments
- Defense Security Cooperation Agency:
 - ▶ Foreign military financing program
 - ▶ Proprietary receipts (loan repayments)
- Interior:
 - ▶ Bureau of Land Management --
 - Oregon and California Grant Lands payments
 - Payments in lieu of taxes
 - ▶ Insular Affairs --
 - Compact of Free Association payments
 - Payments to U.S. Territories
- Labor:
 - ▶ Pension Benefit Guaranty Corp.--
 - Benefit payments
 - Premium collections
 - Other receipts (Government Fund Transfers)

- Treasury:
 - ▶ Presidential Election Campaign Fund disbursements
 - ▶ Financial Management Service --
 Payments to the Resolution Funding Corporation
 Claims, judgements, and relief acts payments
 - ▶ Comptroller of the Currency -- Assessment collections
 - ▶ Office of Thrift Supervision -- Assessment collections

80.5 What are the requirements for trust fund reporting?

Departments that administer major trust funds are required to submit reports of trust fund income and outgo in the format of Exhibit 80C. Reports are required for the following trust funds:

- Defense:
 - ▶ Military retirement fund
- Health and Human Services:
 - ▶ Federal hospital insurance trust fund
 - ▶ Federal supplementary medical insurance trust fund
- Labor:
 - ▶ Unemployment trust fund
- Transportation:
 - ▶ Transportation trust fund --
 Highway trust fund
 Airport and airway trust funds
- Office of Personnel Management:
 - ▶ Civil Service retirement and disability fund
- Social Security Administration:
 - ▶ Federal old-age and survivors insurance trust fund
 - ▶ Federal disability insurance trust fund
- Railroad Retirement Board:
 - ▶ Railroad retirement accounts --
 Railroad unemployment insurance trust fund
 Rail industry pension fund
 Supplemental annuity pension fund
 Railroad Social Security equivalent benefit account

80.6 What are the requirements for financing account reporting?

Departments and agencies that administer major financing accounts are required to submit detailed forecast reports in the format of Exhibit 80D. Expand agency financing account reporting to include significant object classes shown in the *Budget Appendix* program and financing schedules.

Estimate monthly totals for non-Federal transactions such as:

- Loan disbursements;
- Collections for loan repayments; and,
- Net proceeds of asset sales.

Forecast all non-cash transactions between:

- Financing accounts; and,
- Liquidating, subsidy, or Treasury interest accounts.

Identify whether the timing for such transactions is monthly, quarterly, semiannual, or annual, and include the best available dollar amount estimate in the month or months during which you expect to report the transactions to Treasury on the SF 224.

Departments and agencies that must submit detailed financing account reports are listed below:

- Education
- Export-Import Bank
- Federal Communications Commission
- Housing and Urban Development
- Small Business Administration
- Veterans Affairs

Other departments or agencies should continue to report their estimated and actual monthly net disbursements for financing accounts as addendum items in the Exhibit 80B format.

Actual data for financing accounts. -- As discussed in section 80.9 below, the Monthly Treasury Statement (*MTS*) is the source of actual data for outlay plans. However, the *MTS* and the SF 224 reports may not provide the object class data necessary for detailed financing account forecasting. Agency budget and accounting areas are expected to develop internal agency procedures that will produce the object-class detail required for the plans.

Sales of loans. -- In general, proceeds from sales of loans are now being credited to non-budgetary financing accounts instead of to on-budget liquidating accounts. Exhibit 80D reflects the financing account presentation for loan sale proceeds. Detailed asset sale reporting is required by Treasury offices under *asset sale reporting* (80.7) below.

Reporting format. -- Show both financing accounts and corresponding liquidating and/or subsidy accounts on the report.

You must show object class detail in order to:

- Improve Treasury's cash forecasting by identifying non-cash transactions and ensuring consistent treatment on "both sides" of the transaction, i.e., the same amount and timing for both budgetary and non-budgetary credit account entries.

SECTION 80 -- PROCEDURES FOR MONITORING FEDERAL OUTLAYS

- Ensure the integrity of the *MTS*, the Federal Government's monthly budget report. Treasury will use financing account reports to review and monitor the agency Statement of Transactions (SF 224) reports, prior to publication of the *MTS*.

Forecasting methodology. -- If you prepare financing account reports:

- Fiscal year totals for non-cash transactions between financing and (1) liquidating or subsidy accounts, or (2) Treasury interest accounts must not be divided by 12, i.e., spread evenly or prorated over the months of the fiscal year. You must include the best available dollar amount estimate in the month or months during which the transactions are expected to take place, i.e., reported on the SF 224.
- If actual monthly data for recent fiscal years supports the method, you may estimate monthly amounts for some categories, such as loan disbursements and repayments, by pro-rating the estimated fiscal year total, based on recent monthly patterns.

80.7 What are the requirements for asset sale reporting?

Departments and agencies that conduct sales of assets are required to submit forecast reports in the format of Exhibit 80E. A report must be submitted for each sale included in the agency report on outlays (Exhibit 80B) or financing account report (Exhibit 80D). Asset sale reporting is also required by Volume I of the *Treasury Financial Manual (TFM)*, Part 6, Chapter 8500. Asset sales are typically large dollar transactions (\$50 million or more), for which advance notification must be provided to Treasury. The same reporting form, Exhibit 80E, is to be used for both outlay plans and large dollar reporting to Treasury.

Between submissions, the original report for each individual sale is to be updated by the agency and provided to Treasury offices as soon as new estimated and/or actual information is available, until the sale has been completed. Agency and OMB estimates provided for Treasury's budget, cash, and debt forecasting purposes are considered highly confidential and for internal Treasury use only. If unusual circumstances call for disclosure of additional detail, the estimates are characterized as Treasury Department estimates and not attributed to OMB or the agency.

Departments and agencies that currently must submit asset sale reports are listed below:

- Federal Communications Commission
- Federal Housing Administration (HUD)
- Minerals Management Service (Interior)
- Small Business Administration
- Veterans Affairs

Other departments or agencies should be prepared to provide asset sale reports and timely, on-going updates if asset sale transactions are assumed in their official OMB estimates.

80.8 What are the responsibilities of OMB and the Treasury Department?

Both OMB and Treasury will review the agency outlay plans for reasonableness in the light of experience, consistency with the President's policies and objectives, enacted appropriations and other legislation, and

other factors. When circumstances warrant, OMB and/or Treasury may require you to make revisions in the outlay plans.

80.9 When do I submit reports?

Submit the initial report for the budget year to OMB and simultaneously to the Treasury (Office of the Fiscal Assistant Secretary) as specified by OMB, based on the timing of the *Mid-Session Review* of the budget update (current year) in the format of Exhibits 80B, 80C, and 80D, as applicable. The report provides monthly outlay estimates for the budget year. Updated reports are due, beginning October 1, throughout the current year, with coverage expanded to include estimates for the subsequent budget year as shown below.

Use the Monthly Treasury Statement of Receipts and Outlays of the United States Government (*MTS*), as the source of actual data reported. However, be aware that the published *MTS* is subject to prior-month revisions due to back-dated transactions. Such revisions will affect both a prior month (or months) and the published “Current Fiscal Year to Date” amounts shown in *MTS* Table 5. Agency budget and SF 224 reporting offices should work with Treasury’s Budget Reports Branch to develop procedures for ensuring that actual monthly data submitted in outlay reports includes any revisions that may have occurred after the publication of the *MTS*. It is imperative that actual data reflect amounts reported by the agency and recorded in the *MTS*. The actual data should be followed by updated monthly outlay estimates for the balance of the period(s). Reports are due to OMB (an original and one copy) and to Treasury (one copy) as follows:

Reports due by	Monthly outlay actual required for the period	Monthly outlays estimates required for the period
October 1st (current year). (Explain differences from latest public estimate.)*	--	October thru September (current year).
One week following transmittal of the budget. (Explain differences from the current year amounts contained in the budget.)	October thru December (current year).	January thru September (current year). October thru December (budget year).
Early May, to be specified by OMB. (Explain differences from the current year amounts contained in the budget.)	October thru March (current year).	April thru September (current year) and October through March (budget year).
As specified by OMB, based on the timing of the Mid-Session Review of the budget update (current year). (Explain differences from current year amounts contained in the Mid-Session Review.)	October thru May (current year).	June thru September (current year) and October thru September (budget year).

*Normally, the latest public estimate will be that in the most recent Mid-Session Review of the President's budget. Reconcile significant differences between previously reported estimated outlays and revised estimates or actual outlays and explain these changes in the accompanying statements. Additional updated reports may be requested at other times.

¹OMB estimates: Mid-Session Review, 7/15/2001

ACT=Actual; EST= Estimate
NOTE: You must show individual fiscal years, or portions thereof, on separate reports.

NOTE: This Exhibit has been oriented for portrait printing. However, all your reports must be oriented to landscape, in order to accommodate review of all columns shown.

NOTE: Round estimates to the nearest whole million. Where an amount falls exactly halfway between, round it to the nearest even number (e.g., \$11, 500,000 and \$12, 500,000 both will be rounded to \$12 million). Adjust components to add to the correctly rounded totals. All totals will be net of offsetting collections unless otherwise stated.

Trust Fund Reporting Format

The appropriation account symbol should be the primary one associated with the outlay category or MTS line.

The OMB estimates are either the Budget or Mid-Session Review estimates.
